

QPAD MK75

The QPAD MK75 comes with the world's best mechanical Cherry MX switches offering an extra high durability with up to 50 million keystrokes. Built-in Anti-Ghosting is covering all keys of keyboard, preventing you from miss-triggering or double clicking at your most intense moment in games. Dazzling RGB per key illumination emits over 16.8M colors. Unique characteristic, setting apart you from your competitors even in the dark of tournament arena. Always ready to win the game with just a "Plug and play". No fancy or complicated software needed enroute to your victory.
