

No Data Usage Declaration

This document confirms that the product category “mechanical wooden model kits” distributed under the brand Ugears does not collect, store, process, or transmit any personal or user data.

The products are purely mechanical construction model kits made from laser-cut wooden components. They do not contain any electronic parts, sensors, connectivity modules, software, or mobile applications.

As a result:

- No personal data is collected from users
- No data is stored or transmitted
- No internet or wireless connection is used
- No software, firmware, or digital services are involved

These products function entirely through manual assembly and mechanical movement only.

Brand: Ugears

Product type: Mechanical wooden model kit / construction model

Intended use: Manual assembly and mechanical play or display

This declaration applies to all Ugears mechanical model kits offered through online marketplaces where a data usage statement is required.

Manufacturer: Ugears
