

HOW TO USE THE CURLER

1.

Use the Satin Curls Ribbon on dry hair or towel dried hair for best results. Separate your hair into 2 sections.

2.

Align the satin piece of your curling ears on the crown of your head and clip into place to secure.

3.

Twist your hair around the Satin Curls Ribbon, away from your face, towards the back.

4.

Use the included satin scrunchies to secure the ends of your hair.

5.

Remove clips once secured to prevent creasing. Sleep with the Satin Curls Ribbon in your hair overnight, or leave it in for 6 hours.

6.

Let the scrunchies and pull the Satin Curls Ribbon from the top of your hair start with damp hair and blow dry to reveal healthy, bouncy curls!

Pro Tip: Use hair spray before revealing curls for a better hold.
