

## OPERATION GUIDE

- 1.The fixing piece for chassis can be used to twist the lock of the battery cover, please see the picture on the right.
- 2.Please open the lid and put 5 pieces of 1.5V "AA" batteries into the car according to its polarity, then close the lid and twist the chassis piece to lock the battery cover.
- 3.Please open the lid and put the 2 pieces of 1.5V "AA" batteries into the controller according to its polarity, then close the lid and rotate the knob to lock the battery cover.
- 4.Push the switch to the "ON" position on the car, so it can be operated.
- 5.Adjust the direction adjustment switch to control the car running in a straight line.

## CAUTION

- 1.Different types of batteries or new and used batteries are not to be mixed. Exhausted batteries are to be removed from the toy.
- 2.Batteries should be replaced by an adult. Batteries are to be inserted with the correct polarity. The supply terminals are not to be short-circuited.
- 3.Non-rechargeable batteries are not to be recharged. Rechargeable batteries are to be removed from the toy before being charged.
- 4.Rechargeable batteries are only to be charged under adult supervision. Leaked or damaged batteries are not to be charged.
- 5.Only batteries of the same or equivalent type are recommended to be used.
- 6.Never put the batteries near fire or any source of heat, water or direct sunlight.
- 7.Skin or clothing is to be washed immediately if you make contact with leaked liquid from the battery.
- 8.For better preservation of rechargeable batteries, please regularly recharge them. Only a charger of the same or equivalent type is recommended to be used.
- 9.Dispose of batteries responsibly, do not dispose of in fire.

Warning: This toy produces flashes that may trigger epilepsy in sensitised individuals.
