

太阳能充电器说明书

产品简介

· 本产品为户外便携式太阳能充电包，小巧玲珑，方便携带。配备6片大功率的单晶硅太阳能板，高达 20% 的转换率，输出电流高达2400mA, 为您的手机、IPAD或其他小设备充电。在享受大自然阳光的同时为您提供源源不断的绿色能源，是您外出旅游出行的必备佳品。

规格参数

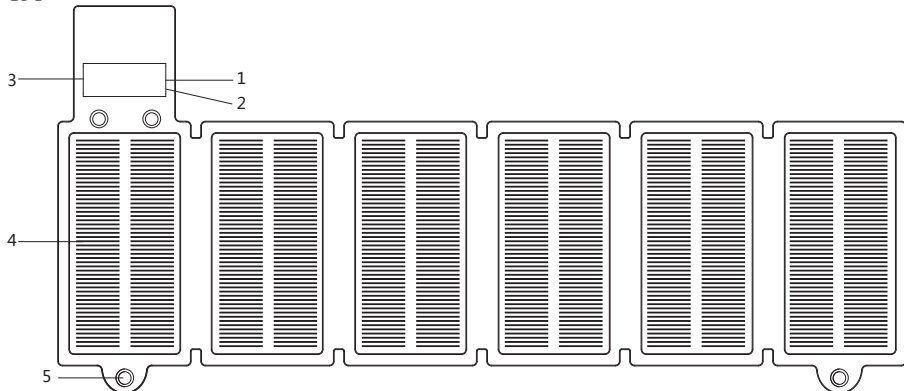

太阳能输出: 5V/2400mA (阳光充足下)

输入 : 5V/2A

输出 : 5V/3A (max)

功能指示

- 1 外接太阳能充电器并接输入端口
- 2 太阳能充电指示灯
- 3 USB输出端口
- 4 大功率单晶硅太阳能板
- 5 挂绳孔

为设备充电

- 1、在有阳光的地方打开太阳能产品，使太阳能板接受太阳的45°照射，太阳能指示灯绿灯亮，这时USB输出可以输出高达5V/2.4A的电流为您的电子产品进行充电。
- 2、为获得更大的电流，此产品可以两个并联使用，并联后可以获得最大5V/3A的电流，实现快速充电。

温馨提示：本产品需要在阳光下使用。本太阳能面板不能直接存储电源，如果您想存储电源，您可以使用它为移动电源充电。如果产品不能工作，请检查 USB 接口是否正确插入太阳能面板。工作后请记住，卸下USB插头。

User manual

·Product introduction

·The product is an outdoor portable solar charger, small and exquisite, easy to carry. Equipped with 6 high-power mono-crystalline silicon solar panels, high transmit efficiency 20%, up to 2400mA max charging current, It can charge mobile phone , IPAD or other small mobile devices. It will provide you with green energy while enjoying the natural sunshine ,which will be your travel necessity.

Specification parameter

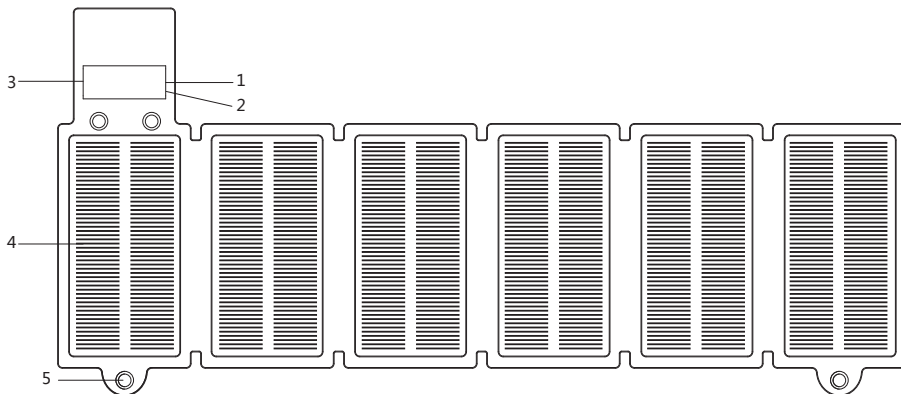

Solar charging :5V/2400mA(In full sunshine)

Input :5V/2A

Output :5V/3A (max)

Function indication

- 1.External solar charger connected to the input port
- 2.Solar charging indicator
- 3.USB output port
- 4.High power mono-crystalline silicone solar panel
- 5.Lanyard hole

Charger the device

- 1、 Open the solar energy product in a place with sunlight, so that the solar panel receives 45° illumination from the sun, the solar indicator is green, and the USB output can up to 5V/2.4A to charge your electronic products.
- 2、 For more current , It can be used in parallel for two or three products. After parallel ,the maximum current output : 5V/3A can be obtained to achieve fast charging.

Tips: This product needs to be used in the sun. This solar panel cannot store power directly. If you want to store power, you can use it to charge mobile power. If the product does not work, check that the USB connector is properly inserted into the solar panel. Remember to remove the USB plug after work.
