EN Connecting the Camera to Your Mobile Device IMPORTANT:

- (1) For all connecting options, you will hear "Please configure camera by scanning code or AP hotspot" after the camera is powered on. Use the pin to press and hold the Reset button for 5-6s to reset the camera if no voice prompts. You will hear "Reset Success" at a successful reset;
- (2) This camera only supports 2.4GHz Wi-Fi;
- (3) For stable network connection, please make sure the camera and the mobile device are close to the router.

1. Connecting by Scanning the QR Code

Step 1: Connect the mobile device to your Wi-Fi, then log in to YCC365 Plus. Click + in the upper right corner, select Intelligent camera and Device adding by scanning the code;

- Network, then click Connect to the network. Select the Wi-Fi your mobile device is connected, enter the correct password and click Next to continue;
- Tip: Click Network Testing in the upper right corner of Connect to Wi-Fi interface to check the status of your Wi-Fi connection.

Tip: There will be a pop-up window if the CLOUDCAM_XXXX Wi-Fi connection is failed.

Step 5: Select the Wi-Fi your mobile device is connected, enter the correct password, then click **Next**. The camera will connect to the Internet after 2 beeps from the camera. During the process, you will hear "Please wait for Wi-Fi connecting "and "Please wait for Internet connecting". When you hear "Internet connected, welcome to use cloud camera", the camera is connected to Wi-Fi successfully.
