

HIGH-PERFORMANCE JUMP STARTER

Meet the Strex Jump Starter, delivering an impressive 4000A peak current with a robust 24.000 mAh battery capacity. Perfect for cars, boats, and other vehicles, this compact powerhouse can start all 12V engines, from 12L gasoline up to 10L diesel.

SMART DIGITAL TIRE INFLATOR

No need to wait around for help or hunt for gas stations! The jumpstarter features a built-in 10.3 bar air compressor, allowing you to inflate car tires, bike tires, and even sports balls on the go. Its digital display ensures you hit the right pressure every time, with three interchangeable nozzles for all your inflation needs.

ALL-WEATHER

When the temperature drops, most jump starters struggle—but not this jumpstarter. Thanks to its advanced technology, this device performs flawlessly in extreme cold, down to -20°C . It's built to handle over 10,000 charge cycles, ensuring your vehicle gets a quick start no matter how cold or hot it gets outside.

MULTI-PROTECTION

Safety is our top priority. The Strex jump starter comes packed with essential safety protections, including reverse polarity, anti-spark, short circuit, and overcharge safeguards. You can use it with total peace of mind, knowing it's designed to keep you and your vehicle safe.

PORTABLE POWER SOLUTION

More than just a jump starter, the Strex doubles as a flashlight and power bank with massive charging capacity. Whether you're out on a road trip or need emergency power, Strex ensures your devices and vehicles are always ready for action.
