PRINTED IN GERMANY

The F-14 Tomcat entered service in 1974 and has become one of the most successful fighter jets in the world. It was the last of the "swing-wing" fighters, designed to perform both air-to-air and air-to-ground missions. The F-14D is the two-seat, all-weather version of the Tomcat, featuring advanced avionics and the ability to carry a variety of weapons. It was the last fighter to be built by General Dynamics, which merged with Ford Aerospace to form Lockheed Martin in 1995. The F-14D was the last aircraft to be built by General Dynamics.
