3D MAGNETIC TILES

Explore, discover & imagine with Playmags!

Playmags' building blocks are unique, the magnets attract on all sides and even after flipped around. Children will effortlessly learn through creative play about geometric shapes, symmetry, architecture and basic math concepts such as counting, addition and subtraction through manipulation of the colorful pieces.

Place the pieces together on a flat surface to make designs. Build a cube with six identical sides and notice how the first two pieces placed next to each other create instant support and allow additional pieces to be added easily.

Play is the primary mode of learning for children. Young children love discovering the world around them. When a child has the opportunity to interact with and successfully construct 3D projects from them, the sense of independence is very exciting and empowering.

Playmags offers hours and hours of fun - children can build various projects and let their imagination go wild with ideas. Create cubes, houses, airplanes, cars, fish and so much more!
