Cornhole Rules

GOAL:

Easy, get to exactly 21 points!

A bag on the board counts for one point. A bag through the hole counts for three points

But, be aware! When you exceed the 21 points your team will be put back to 15 points!

Game Setup

Starting point
Team A

Starting point
Team B

(Feel free to move the boards a little closer if the distance is making the game too difficult)

8 meters

1. Teams have one player on both sides. Each board therefore has a player from each team.
2. Each team has four bags of the same color.
3. All bags start on one side and are thrown to the board on the other side.
4. Rock-Paper-Scissor for deciding who throws first.
5. You can stand anywhere as long as you have both feet behind the front of your own board.

Starting point
Team A

Starting point
Team B

Scoring

1. Take turns to throw a bag until both teams have thrown 4 bags to the same board. That completes one round of playing.
2. A bag through the hole is 3 points, a bag on the surface of the board is 1 point.
3. Points are subtracted from each other after all bags have been thrown and added to the winning team's score.
4. The winning team starts the next round.

BE AWARE:

The points only count at the end of the round when all bags have been thrown.

EXAMPLE:

Team 1 scores 10 points and team 2 scores 7 points. Team 1 then wins the round with three points. Those three points are added to the total. The score is now 3-0 for team 1. Team 1 will start throwing in the next round.

BE AWARE:

Did you score too many points as a team and exceeded 21 points? Then you automatically go back to 15 points!
