LARGE BATTERY WATERPROOF HD SCREEN PHOTO & VIDEO

The Strex endoscope is a very handy and practical device in your daily life as it can be used for automobile inspection, pipeline inspection, air conditioning inspection, object search and more.

Equipped with a 4.3 inch screen and having 8+1 super bright LED bulbs, this endoscope can provide a high-quality image/video for all your inspections. The flexible cable is half rigid and you can easily use it to reach hard to reach spots. Features a built-in rechargeable battery of 2600mAh, it can work for up to 5 hours after each charge. Making this endoscope a great tool for both home and industrial uses.
