The ethanol is then dehydrated to produce ethylene which is polymerized to make the bioplastic.

Klein Toys manufactures toys made of bioplastic in its German facilities

After the harvest the sugarcane is brought to mills where it is crushed to produce ethanol

After use Klein bioplastic toys can be 100% recycled

CO<sub>2</sub> - reducing the greenhouse effect - reducing CO<sub>2</sub> emissions

Sugarcane is planted and cultivated in controlled areas. It is the basic raw material of the bioplastic for Klein toys
