EDUSHAPE® Ltd. is committed to producing soft, safe, quality children’s toys which ultimately promote successful developmental learning through play.

We have independent labs test our products, considered by many to be the best scientific laboratories in the world.

All products meet and or exceed CE and ASTM toy safety standards. Each Edushape toy is the result of a team effort involving designers, psychologists, teachers and at times parents who have a great concept, working in conjunction with those who manage sourcing to ensure that all materials are safe and durable.

Please keep enjoying our quality products and in every question, you have regarding safety issues, do not hesitate to contact our QC expert: customerservice@edushape.com
