SAFE SIZING FOR JUVENILE AND SIDEWALK BICYCLES
It is assumed that the bicycle you have bought is sized correctly for the user. Some parents buy a bicycle for their child, planning on the child growing into it. There should be a minimum of 1cm clearance above the highest point of the top tube when the child is sitting on the bicycle with both feet on the ground (see drawing below).

WARNING: Parents should supervise the child when riding the bicycle. Do not allow the child to ride the bicycle on roads or paths until they are competent and confident riders. Do not allow the child to ride the bicycle on roads or paths until they are competent and confident riders. Do not allow the child to ride the bicycle on roads or paths until they are competent and confident riders.

SAFETY INFORMATION: Please check and make sure the bicycle is complete and new before use. Do not use a damaged or broken bicycle. Do not use a bicycle that has been repaired or modified. Do not use a bicycle that has been used for other purposes. Do not use a bicycle that has been used for other purposes.
