

SHARP 1080P IMAGES ON A 4.3" IPS DISPLAY

See every detail in Full HD on a bright 4.3-inch IPS screen with a 170° viewing angle and true-to-life colours. No phone, no app, no pairing – just power on and inspect.

8 ADJUSTABLE LEDS LIGHT UP DARK SPACES

Brighten tight, pitch-black spots with eight built-in LEDs you can dim from 0 to 100%. Get the right amount of light for a clear image, whether you're checking an engine bay or a drain.

7.9MM IP67 WATERPROOF PROBE

The slim 7.9mm camera head slips into narrow openings other tools can't reach. Its IP67 rating keeps the probe safe in wet, oily or dusty environments.

15-METRE SEMI-RIGID SNAKE CABLE

The 15-metre cable bends and holds its shape, so you can guide it around corners and into hard-to-reach spots. Ideal for cars, walls, pipes, HVAC and electrical work.

UP TO 3.5 HOURS OF USE PER CHARGE

Work for up to 3.5 hours on a full battery and recharge in around 3 hours via USB-C. The ergonomic grip and one-handed controls keep you comfortable on longer jobs.
