

TRENDnet®

- Home Smart Switch (with Wireless Extender)

THA-103AC

- Quick Installation Guide (1)

1. Before You Start

Package Contents

- THA-103AC
- Quick Installation Guide
- CD-ROM (User's Guide)

Minimum Requirements

- Existing Wireless AC or N network
- Mobile device (e.g. Smartphone, Tablet) with Android (version 2.3 or higher) or iOS (version 6.1 or higher)

2. WPS Setup with iOS Device

Note:

- WPS requires an external WPS button on your wireless router or access point in order to connect the THA-103AC switch to your network. If your router does not have a WPS button, or if you prefer to connect to your wireless network using our free app, please skip to the next section, Manual Setup with iOS Device located below.
 - If you have an Android mobile device, refer to Section 4, **WPS Setup with Android Device**, or Section 5, **Manual Setup with Android Device**.
1. For the initial installation, plug the **THA-103AC** into a power outlet near your router or access point. Toggle the power switch down to the “On” position, and wait 30 seconds while the unit boots up.

2. Press and hold the **WPS** button on your router for 5 seconds.

3. Press and hold the **WPS** button on the **THA-103AC**. To connect to a 2.4GHz network, press and hold the button for three seconds and the WPS LED will flash. To connect to a 5GHz network, press and hold the button for seven seconds, the WiFi LED will flash. When the LED turns solid, the unit is connected.

4. Enable the WiFi settings on your iOS mobile device, and connect to your home wireless network.
5. Go to the Apple App Store, and search for the **TRENDnet Smart Home** app, then install the app. Or, scan the QR code below to download and install the app.

6. Open the **TRENDnet Smart Home** app.

7. Tap the **Add (+)** icon

8. Click **LAN Search**.

9. Select the **THA-103AC** smart switch.

10. Enter the default password: **admin**.

11. Tap **Done** to save the changes.

12. Tap on the **THA-103AC**.

13. Tap the **power** icon to verify the outlet will turn on/off.

14. Wireless extender's setup is also finished. The **THA-103AC** can be moved to its final location. To project the strongest signal from the built-in wireless extender, put the unit in an area where your mobile device has at minimum three signal bars from your wireless network.

ENGLISH

15. Installation is now complete! For detailed configuration information and advanced settings, Please refer to the User's Guide CD-ROM. Visit www.trendnet.com for product updates and online support.

Note:

FRANÇAIS

It is recommended that you change your password to ensure your device is secure. To change the password, open the **TRENDnet Smart Home** app, and locate your device. Click on the **Device Settings** icon, then select **Advanced Settings**. It is also recommended that you change your wireless passwords. To do so, please login to the device's configuration page and adjust your settings under the wireless section.

3. Manual Setup with iOS Mobile Device

Note:

- Manual Setup uses TRENDnet's free app to connect the THA-103AC to your wireless network.
 - If you have an Android mobile device, skip to the next section, **WPS Setup with Android Device**, or Section 5, **Manual Setup with Android Device**.
1. To project the strongest signal from the built-in wireless extender, put the **THA-103AC** in an area where your mobile device has at least three signal bars from your wireless network. Toggle the power switch to the "On" position, and wait 30 seconds while the unit boots up.

2. Go to the Apple App store, and search for the **TRENDnet Smart Home** app, then install the app. Or, scan the QR code below to download and install the app.

3. Enable the Wi-Fi settings on your iOS mobile device, and connect to the **THA-103AC**.

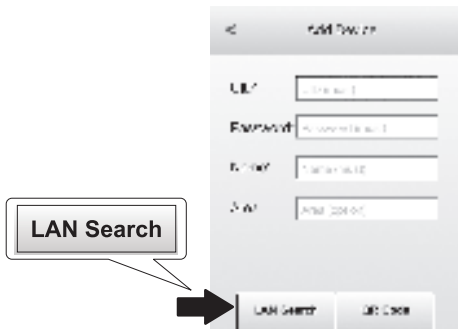

4. Enter the wireless password and tap **Join**. The default password is **password**.
5. Open the **TRENDnet Smart Home** app.

6. Tap the **Add (+)** icon

7. Tap LAN Search.

8. Select the **THA-103AC** smart switch.

9. Enter the default device password: **admin**

10. Tap **Done** to save your changes.

11. Tap the **Device Settings** icon.

12. Tap **Advanced Setting**.

Advance Setting

13. Tap **WiFi Setting** then tap **WiFi**.

WiFi Setting

14. Select your wireless network. The **THA-103AC** is capable of extending both 2.4GHz and 5GHz networks. If your router supports dual-band networking, you will have to choose which network to connect with the unit.

15. Enter your network's WiFi password and tap **OK**.

16. Close the app.

17. Connect your mobile device to your wireless network and re-launch the **TRENDnet Smart Home** app.

18. Tap on the **THA-103AC**.

19. Tap the **power** icon to verify if the outlet will turn on/off.

20. Installation and wireless extender's setup are now complete! For detailed configuration information and advanced settings, please refer to the User's Guide CD-ROM. Visit www.trendnet.com for product updates and online tech support.

Note:

It is recommended that you change your password to ensure your device is secure. To change the password, open the **TRENDnet Smart Home** app, and locate your device. Click on the **Device Settings** icon, then select **Advanced Settings**. It is also recommended that you change your wireless passwords. To do so, please login to the device's configuration page and adjust your settings under the wireless section.

4. WPS Setup with Android Device

Note:

- WPS requires an external WPS button on your wireless router or access point in order to connect the **THA-103AC** switch to your network. If your router does not have a WPS button, or if you prefer to connect to your wireless network using our free app, please skip to the next section, **Manual Setup with Android Device** located below.
 - If you have an iOS mobile device, refer to Section 2, **WPS Setup with iOS Mobile Device**, or Section 3, **Manual Setup with iOS Mobile Device**.
1. For the initial installation, plug in the **THA-103AC** into a power outlet near your router or access point. Toggle the power switch down to the “On” position, and wait 30 seconds while the unit boots up.

2. Press and hold the **WPS** button on your router or access point for 5 seconds.

3. Press and hold the **WPS** button on the **THA-103AC**. To connect to a 2.4GHz network, press and hold the button for three seconds and the WPS LED will flash. To connect to a 5GHz network, press and hold the button for seven seconds, the WiFi LED will flash. When the LED turns solid, the unit is connected.

4. Enable the WiFi settings on your Android mobile device, and connect to your home wireless network.
5. Go to the Google Play Store, search for the **TRENDnet Smart Home** app, and install the app. Or, scan the QR code below to download and install the app.

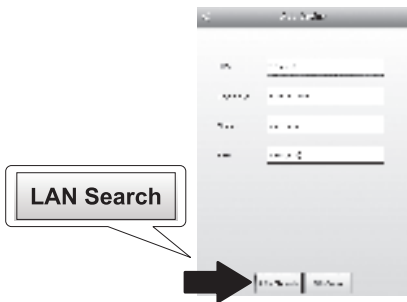

6. Open the **TRENDnet Smart Home** icon.

7. Tap the **Add (+)** icon.

8. Tap **LAN Search**.

9. Select the **THA-103AC** smart switch.

10. Enter the default password: **admin**.

11. Press the **Add (+)** icon.

12. Select the **THA-103AC** smart switch.

13. Tap the **power** icon to verify the outlet will turn on/off.

14. Wireless extender's setup is also finished. The **THA-103AC** can be moved to its final location. To project the strongest signal from the built-in wireless extender, put the unit in an area where your mobile device has at least three signal bars from your wireless network.
15. Installation is now complete! For detailed configuration information and advanced settings, please refer to the User's Guide CD-ROM. Visit www.trendnet.com for product updates and online tech support.

Note:

It is recommended that you change your password to ensure your device is secure. To change the password, open the **TRENDnet Smart Home** app, and locate your device. Click on the **Device Settings** icon, then select **Advanced Settings**. It is also recommended that you change your wireless passwords. To do so, please login to the device's configuration page and adjust your settings under the wireless section.

5. Manual Setup with Android Device

Note:

- Manual Wireless Setup uses TRENDnet's free app to connect the **THA-103AC** to your wireless network.
 - If you have an iOS mobile device, refer to Section 2, **WPS Setup with iOS Mobile Device**, or Section 3, **Manual Setup with iOS Mobile Device**.
1. To project the strongest signal from the built-in wireless extender, put the **THA-103AC** in an area where your mobile device has at least three signal bars from your wireless network. Toggle the power switch to the "On" position, and wait 30 seconds while the unit boots up.
 2. Go to the Google Play Store, search for the **TRENDnet Smart Home** app, and install the app. Or, scan the QR code below to download and install the app.

3. Enable the WiFi settings on your Android mobile device, and connect to your **THA-103AC**.

4. Enter the wireless password and tap **OK**. The default password is **password**.

5. Open the **TRENDnet Smart Home** app.

6. Tap the **Add (+)** icon.
