

# Nail's Strengthening & Moisturising Gel.

Strengthening and moisturizing nails gel with keratin, amino acids, green tea, bamboo extract, panthenol and vitamins A & E.

Pharmaid's strengthening and moisturizing nail gel fortified with vitamins A, E and panthenol, nourishes and strengthens nails, especially the thin and fragile. Thanks to the keratin amino acids and protein complex containing silicone, corrects imperfections and creates a protective film around the nails that helps not to crack and peel.

Contains green tea and bamboo extracts, as well as moisturizing ingredients that provide essential moisture to nails, while treats the surrounding area.

Enhances healthy growth and natural shine of nails.

## INSTRUCTIONS FOR USE:

Use this product on clean nails. Apply a sufficient amount evenly over the nails and the surrounding area and rub gently. It is proposed to use 3 to 4 times a week after removal of the nail color.

Ingredients: aqua, glyceryl betaine/polyacrylic acid esters, glycerin, phenoxyethanol, ethylhexylglycerin, hydrolyzed wheat protein PG-propyl silanetriol, keratin aminoacids, camelia sinensis leaf extract, butylene glycol, bambusa vulgaris leaf/stem extract polysorbate 20, retinyl palmitate, tocopherol acetate, linolenic acid, panthenol, sodium hydroxide, carbomer, parfum, disodium EDTA
