

IMPORTANT

This is a wetsuit designed to help keep you warm in the water and is not a life saving device.

WETSUIT CARE INSTRUCTIONS

Your wetsuit has been manufactured from carefully selected materials to give the best combination of durability and performance. With the correct maintenance you will gain the maximum life from your wetsuit.

Always rinse your wetsuit after use in clean water using a mild detergent if necessary.

Pay particular attention to remove any sand and other foreign matter from zips.

Do not use solvents or other chemicals to remove stains or marks from your wetsuit as this can cause damage.

Protect your wetsuit from sharp or abrasive objects.

Ensure the suit is the correct size and do not pull ends of sleeves or legs to remove.

DO NOT FORCE ZIPS.

If possible get someone to pull zip up for you.

Pull zip up not across.
