CERAMIC & IONIC EDITION

CERAMIC & IONIC EDITION

FLUSSO DI IONI NEGATIVI
FLOW OF NEGATIVE IONS

L'effetto combinato della CERAMICA e IONI NEGATIVI irradia il calore all'interno del capello senza essiccarlo.
The combined effect of CERAMICS and NEGATIVE IONS radiates heat inside the hair without drying it out.

Le gocce d'acqua si trasformano in micro-molecole assorbite dal capello rendendolo lucido, morbido e sano.
Drops of water are transformed into micro-molecules which are absorbed by the hair leaving it soft, shiny and healthy.
