Electric Heating Blanket
Elektrisch Warmtedeken
Elektrische Heizdecke

Double layered

Energy efficient

Smart timer

The **9 advantages** from our heating blanket

1

9 heat settings

Adjust the warmth to your preference with 9 adjustable settings for quick heating and a personalized experience using the convenient remote control.

2

Extra Heating Wires

Our newest model features additional heating wires that extend up to 15 cm from the edge, compared to the standard 30-35 cm. This ensures more even heat distribution, providing you with extra comfort and warmth throughout the day.

3

Smart Timer

Drift off to sleep peacefully or preheat the bed with the smart timer function offering 9 time settings of up to 9 hours, with automatic shut-off in case of overheating for peace of mind. Each setting represents 60 minutes.

4

Washable

Keep the blanket fresh and clean by easily removing the wiring and washing it in the machine at 30 degrees or by hand.

5

Teddy Bear Softness

Experience the unparalleled softness of teddy bear-like sherpa fabric for a wonderfully cozy and soft experience, perfect for cold days.

6

Reversible

Combining heat-insulating fleece with luxurious, fluffy sherpa for ultimate comfort and versatility, allowing you to enjoy it throughout the year.

7

Energy-efficient

Save on energy costs while still enjoying delightful warmth without heating up the entire room.

8

Overheating Protection

Promote circulation and enjoy warm hands and feet thanks to the penetrating heat of our electric heated blanket.

9

Promotion of Circulation

Rest easy, thanks to the built-in safety system with sensor technology that automatically shuts off in case of overheating.
