

How to use (CONSTRUCTION NAIL)

step 1: File nail first.

step 2: Apply a very thin layer of Quick Construction Gel, and cure for 30s.

step 3: Pick a little more amount of Quick Construction Gel and pave the surface turn over the nail for 10s and cure for 60s.

step 4: Apply top coat and cure for 60s.

HOW TO USE (QUICK EXTENSION)

1. Polish the nail surface.

2. Apply base gel and cure it.

3. Put a nail form on your nail.

4. Apply Quick Construction Nail Gel on the nails and cure it.

5. Remove the forms.

6. Shape the nails.

7. Apply top coat and cure it.

8. Accomplish.

WARM TIPS: The nail surface feels sticky after curing, don't worry, this is normal. You can use cleanser liquid to remove the tacky layer slick on the nail surface.
