

Product information and user manual

Product name: Krumble Heat-resistant oven glove – black
EAN: 8719688008223

Introduction

Thank you for choosing the Krumble Heat Resistant Oven Glove. Designed to protect your hands from extreme temperatures up to 500 degrees Celsius, this glove is ideal for a variety of high-temperature tasks including baking, grilling, and handling hot items in both kitchen and outdoor settings. To ensure your safety and maximize the lifespan of your oven glove, please read and follow all instructions contained in this manual.

Product Specifications

- Material: Constructed from high-quality, heat-resistant aramid fibers.
- Temperature Resistance: Capable of withstanding temperatures up to 500 degrees Celsius (932 degrees Fahrenheit).
- Exposure Time: Varies by temperature, as detailed below.
- Size: Universally designed to fit most hand sizes.
- Care Instructions: Machine washable at 30°C.
- Manufactured: Made in China.

Using Your Oven Glove

1. Initial Wash: Clean the glove in cold water before the first use and dry it completely.
2. Handling Hot Items: Fit the glove snugly on your hand before touching hot surfaces. Ensure you maintain a firm grip to avoid accidents.
3. Heat Exposure Guidelines: Follow these recommended exposure times to prevent harm:
 - 500°C/932°F: 12-15 seconds
 - 350°C/662°F: 16-18 seconds
 - 250°C/482°F: 21-23 seconds
 - 100°C/212°F: 55-68 seconds
4. Wet Conditions: Do not use the glove when damp, as moisture can transfer heat to the skin more rapidly.

Care and Maintenance

- Washing: Machine wash at 30°C with mild detergent. Air dry before the next use.
- Storage: Keep in a dry, cool place away from direct sunlight and heat sources to maintain the integrity of the fibers.
- Regular Inspection: Check for signs of wear or damage. If the glove is compromised, it should be replaced to ensure ongoing protection.

Safety Information

- Extended Use: These gloves are designed to extend the duration you can handle hot objects but are not a permanent guard against heat or fire.
- Non-immunity to Liquids: The gloves are not intended for protection against hot liquids.
- Cleanliness: Keeping the gloves clean is essential for performance efficiency. Dirt or buildup can decrease heat resistance.
- Damage Control: Should the gloves become torn or damaged, cease use immediately and replace them to maintain protection levels.

Warranty and Compliance

- Warranty: This product comes with a 24 months warranty that covers manufacturing defects. It does not extend to damage from misuse, abuse, or normal wear and tear.
- Compliance: The glove carries the CE mark, confirming its compliance with European health, safety, and environmental protection standards.
