

1. Take out the string light part.

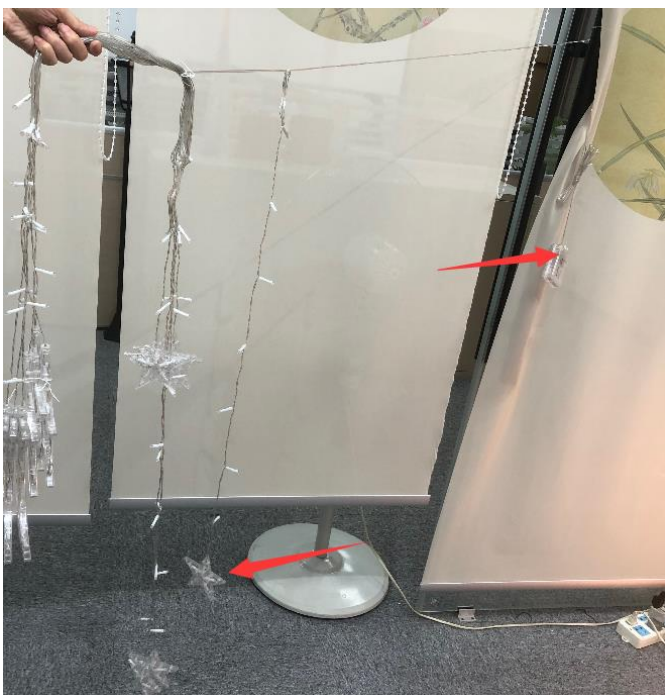

2. Unfasten the first cable tie. Put stars and moons on one side, and all other drops on the other.

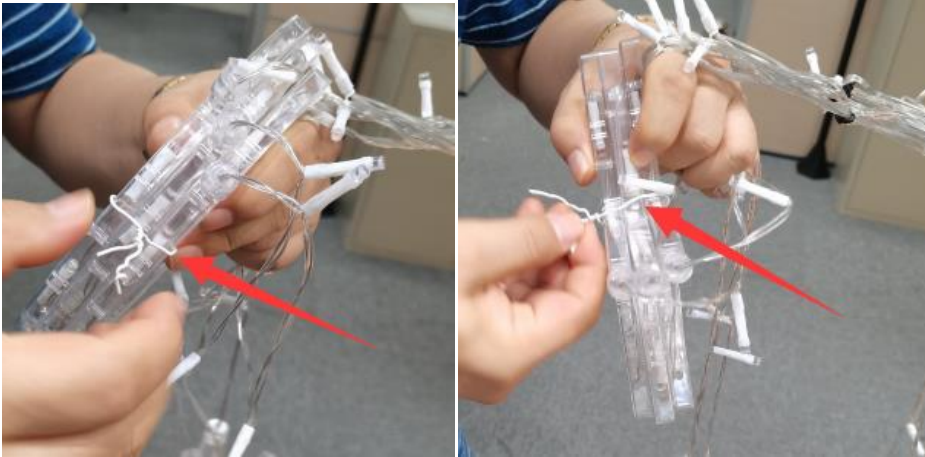

Warning: Do not unfasten the second cable tie until after Step 5.

3. Locate the battery box and hang it somewhere such as on a wall, a cabinet or a window etc. .

4. Hold the remaining strand. Locate first drop of the small stars, which is the first drop from the battery box. Release this first drop ..

5. Unfasten the cable tie of the big stars and the big moons.

6. Now unfasten the second cable tie.

7. Release other drops one by one while holding the strand together. Do not try to release them all at once. Hold remaining strand until the end.
