2 x 20W
FOLDABLE SOLAR PV MODULE
MONOCRYSTALINE WITH CHARGE CONTROLLER

PYTHON
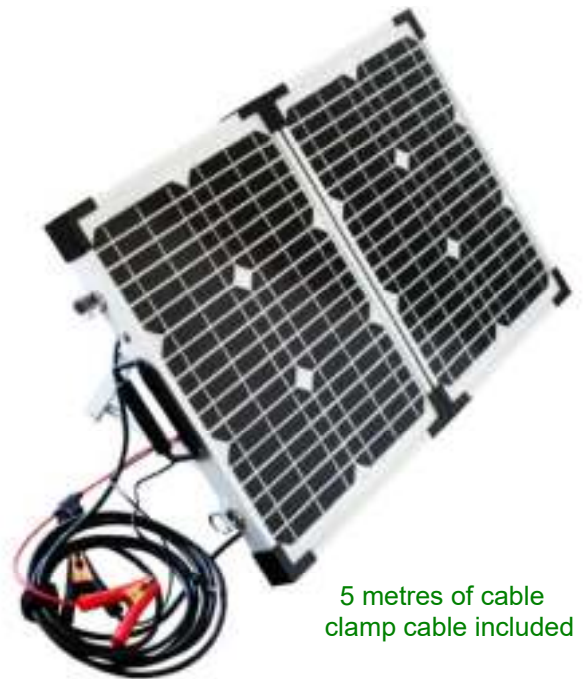

POWERplus® Python
2 x 20W
Foldable Solar Panel
Monocrystaline with charge controller

The POWERplus Pyhton is a foldable monocrystaline solar panel with an output of 2 x 20W.
This high quality solar panel has an aluminium frame, protective corner bumpers and is foldable to a case. With the protective case cover, the Python can safely be transported.

The Python comes with an integrated charge controller with built-in USB output. Besides this, the Python includes a 5 metre total length cable incorporating a 4 metre cable with cable clamps and charging cable and a 1 metre length cable with DC5521 adapter output to charge powerstation with DC5521-standard charging in port.

5 metres of cable clamp cable included

Foldable design, easy to carry
Aluminium frame
with protective corners

Protective transport case

Integrated controler with USB outport

Technical details:
The Python is compatible with the POWERplus Cayman

Pmax :	40w
Vmp:	18v
Voc:	21.6v
Imp:	2x1.11A
Isc:	2X1.2A
Dimension open :	470*700*35mm
Dimension folded:	470*350*75mm
Weight incl. Case:	6,95 kgs
Efficiency:	18.4%
