B-02 – RGB Gaming case

The B-02 convinces both with a standard 120mm RGB fan on the back, as well as with the integrated RGB LED strip in the front. Both RGB elements can be controlled in their colors and effects using the reset button. The acrylic window side panel offers an insight into the interior of the housing and skilfully stages the built-in hardware.

One USB 3.0 and two USB 2.0 front connectors are located in the upper part of the front and are easy to reach. Space for up to two additional fans and installation options for up to 3x 3.5" HDD and 2x 2.5" SSD complete the overall package.

✓Front panel with an integrated RGB LED strip

✓120mm RGB fan included

✓Window side part made of acrylic

✓Graphics cards up to 35cm in length

B-02

Specifications
