

The i1R 2 Pro is the upgraded version of i1R 2 EOS. Its CSP LED paired with a TIR optic lens, generates a soft beam of 5 lumens or 180 lumens. Users can turn the light on/off and switch outputs with a simple twist of the head. It charges through a USB-C port. Powered by a built-in 130mAh Lithium-ion battery, it runs up to 12 hours. Its aluminum alloy body is extremely durable. 2 inches long with a weight of 0.78oz, the i1R 2 Pro is the perfect addition to your keychain.
