

45 litre liner rim rectangular step can nano-silver clear coat  
brushed stainless steel

Our new stainless steel rectangular step can features an innovative 'liner pocket' that stores and dispenses liners from inside the can for a faster liner change. The stainless steel liner rim grips the liner and keeps it hidden. And with no inner bucket, there's more space for trash. Strong wide steel pedal is designed to last, and our patented lid shox technology ensures a smooth, silent close every time.

- liner pocket: Keep liners where you need them. Dispense them one by one -- no perforations or unraveling -- from inside the can for a faster liner change.
- easy liner refills: Code M liner refill packs are designed to slip easily into the back of the built-in liner pocket.
- neat and secure: Stainless steel liner rim flips up for a quick and easy liner change, then closes over the liner to hold it tightly in place and keep it hidden from sight.
- nano-silver clear coat: Protects stainless steel from fingerprints and germs.
- streamlined design: With the new integrated drip guard, an inner bucket is unnecessary. Now it's easier to change the liner, and there's 25% more capacity for trash.
- strong wide steel pedal: Our extra-wide steel pedal is engineered to last 150,000 steps — that's more than 20 steps a day for 20 years.
- silent close lid: Our patented lid shox® technology controls the motion of the lid for a slow, silent close.
- internal hinge: Prevents the lid from bumping the wall.
- custom fit liners: Code M liners are designed to fit this can perfectly and are extra strong to prevent leaks and tears. Refill packs dispense liners one at a time and store perfectly in cans with our new liner pocket feature.
