

IN SILENCE WE FIND TRUTH

ALICE IS MISSING is a silent role playing game about the disappearance of Alice Briarwood, a high school junior in the small town of Silent Falls. During the game, players only communicate using their phones, sending text messages to each other as they unearth clues about what happened to Alice.

With a full-length, licensed soundtrack and a structured narrative that unravels solely at the hands of the players, *Alice Is Missing* is an immersive experience designed to be played in one session and without the need for a gamemaster.
