

STREX | ULTRASONIC CLEANER

POWERFUL ULTRASONIC CLEANER

The 600ML Ultrasonic Cleaning Machine, operating at 40kHz with a 35W power capacity, ensures a thorough but gentle cleaning process that won't damage your valuables. Its ultrasonic waves are adept at removing dirt, dust, and stains from various items, including jewelry, CDs, glasses, and coins.

STAINLESS STEEL TANK

The Strex Ultrasonic Cleaner is expertly crafted from corrosion-resistant SUS 304 stainless steel for the tank and ABS housing, ensuring durable and long-lasting use. With its large 600ml capacity, it can accommodate a wide variety of items that can be fully submerged in water without any spillage. The cleaning process is incredibly convenient, requiring just a simple wipe with a rag.

TIMER FUNCTION

The Strex Ultrasonic Cleaner offers preset auto cleaning options with five distinct working cycles, displayed digitally as 90s, 180s, 280s, 380s, and 480s. With an auto shut-off feature and a 5-minute cleaning duration, this versatile device also includes a reset function that allows the machine to restart. Users can clearly view the cleaning time and select different durations to optimize cleaning to achieve the most thorough results.

EASY TO CLEAN AND USE

The Strex Ultrasonic Cleaner is a highly efficient cleaning solution that offers quick and easy operation in just three simple steps: insert, clean, and walk away! This portable device has an ABS shell and stainless steel liner design which allows for straightforward cleaning after use, eliminating the need for additional cleaning agents.

MULTI APPLICATION

Specially designed for cleaning various personal and household items, this Ultrasonic Machine is suitable for a wide array of objects: necklaces, bracelets, rings, and earrings, along with accessories such as badges, glasses, and watchbands. The cleaner's capabilities extend to other items such as discs, dentures, toothbrushes, cosmetics, razors, lab tools, instruments, and fittings.
