

Charly

Fan

Stadler Form[®]

SWISS DESIGN SINCE 1998

CHARLY lifts off!

Up to 6'000m³ air volume per hour

Oscillation mode to steadily distribute the cool air

Adjustable tilt with 4 positions

Convenient handle for easy transport

Charly stand is height-adjustable

Charly the fan has already achieved cult status. The exceptional wind machine is now equipped with oscillation. Charly thereby distributes the cool air steadily in the room. With a design resembling a jet aircraft turbine and an air-moving performance to match: three aluminium blades allow this fan to shift up to 6'000 m³ of air an hour. But thanks to his rounded, die-cast zinc base, Charly remains firmly anchored on the ground, while his tilt is still adjustable. The air circulation rate can be set to one of three levels. Charly is a tough guy, made exclusively of metal: zinc, aluminium and coated steel.

Specifications

Air volume up to 6'000 m³ per hour

3 speed levels

Adjustable tilt with 4 positions

Power: 25 – 45 watt (little), 36 – 60 watt (floor),

36 – 60 watt (stand)

Room size: up to 20 m² (little), 50 m² (floor & stand)

Dimensions: 352 x 395 x 255 mm (little), 450 x 485 x

280 mm (floor), 450 x 1'300 x 400 mm (stand)

Weight: 3.5 kg (little), 4.5 kg (floor), 9.4 kg (stand)
