

Quick Installation Guide
Moki Wireless Bluetooth Speaker

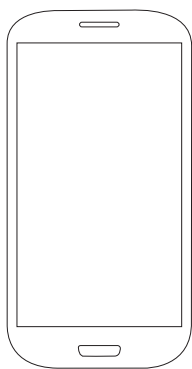

Charging

The diagram illustrates the charging process. A USB cable is plugged into the charging port on the back of the speaker. Below this, a red LED indicator is shown next to a battery icon with a lightning bolt, indicating charging status. Another battery icon with a full charge symbol is shown next to a 2-hour timer icon, indicating the charging duration.

Wireless - setup 1/2

The diagram shows the top control panel of the speaker, which includes an 'on' button, an 'off' button, and a Bluetooth icon. Below the panel, two status indicators are shown: a blue and white circle representing 'Pairing mode' and a solid blue circle representing 'Paired'. An arrow points to the right, indicating the next step in the setup process.
