General Tips

- Do not shine product directly into eyes.
- Close supervision is necessary for when the product is used near children. Do not allow the product to be used as a toy.
- When product is not in use, store in a cool place for longer battery life. Ideally charge for 1-2 hours before storing.
- Do not submerge in water.

Cleaning

Ensure the product is switched off and properly cooled before performing any type of cleaning. Use only a moistened soft cloth to clean. Do not use solvents or abrasive cleaners.

Charging the light

The utility light can be recharged from any USB port. To charge, simply plug the cable to the micro USB socket. **Only recharge when it is OFF**

Charging your device

The power bank has a single USB output of 2.1A, ideal for charging smart phones and other electronic devices.
Note: If you are using battery intensive applications or features on your phone whilst using the power bank to charge it, you may not notice a big increase in the battery level as you are draining the phone battery at the same time.

Instruction

1. White light switch: Press one for maximum brightness mode.
Press again for power saving mode.
Press and hold for two seconds to turn it OFF
2. SOS switch: press one for SOS mode
Press again to turn OFF
3. LED indicator light: It stays red when charging and turns green after being fully charged.
4. When battery is low, the indicator light will flash red.

Caution

1. This portable light uses automatic identification technology. Please use a device that has fixed 5V DC output voltage (0.5A-2A) to charge the light.
2. When the battery is exhausted, it will automatically turn off, connect the charger to use.
