

Recommended age of user: 2Y +, maximum weight of child: 35kg

## WARNING !

1. Age Range: This product is designed for children aged 2-6 years.
2. Assembly: Adults must assemble this product. Keep away from fire.
3. Storage Conditions: Avoid prolonged use or storage in humid, cold, or high-temperature environments.
4. Supervision: Caregivers must supervise children at all times while using this product.
5. Safe Use: Children should not stand alone in the car.
6. Usage Environment: Do not use near thresholds, stairs, uneven or rugged surfaces, which may cause injury.
7. Transportation: This product is not intended for use as a means of transportation. Keep away from highways, sloped roads, streets, pools, high-temperature areas, and humidity areas, and power supplies.
8. Pushing Prohibition: Do not allow other children to push while a child is riding.
9. Weight Limit: The maximum load capacity is 30 kg (66 lbs).
10. Instruction Manual: Guardians must read the instructions thoroughly before use for the safety of children.
11. Maintenance: This manual contains important information. Please retain it for future maintenance and general knowledge.

## GENERAL MAINTENANCE

1. Be Careful: While using it, please be careful, because it requires skills to avoid falling or collision and causing harm to the user or third party.
2. Check it properly: An adult is required to check whether it is assembled correctly before use.
3. Fastener Check: Before each use, ensure all fasteners are securely tightened.
4. Lubrication: Regularly apply solid grease to all rotating parts, including handlebar shafts, to enhance the product's longevity.
5. Storage Conditions: Do not use or store the product in wet, cold, or high-temperature environments for extended periods.
6. Avoid Overloading: Refrain from operating the product beyond its maximum load capacity to prevent damage.
