How to use Connect

You'll need Spotify Premium to use Connect, see details overleaf.

- Step 1** Add your new speaker to the same wifi network as your phone, tablet or PC (see product user instructions for details).
- Step 2** Open the Spotify app on your phone, tablet or PC, and play any song.
- Step 3** If you're using the app on a phone – tap the song image in the bottom left of the screen. For tablet and PC – move to step 4.
- Step 4** Tap the Connect icon .
- Step 5** Pick your speaker from the list. If you can't see it, just – check it's connected to the same wifi network as your – phone, tablet or PC.

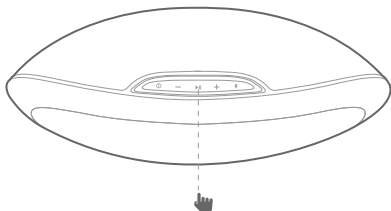

All done! Happy listening.

One-Touch Play feature – continue listening to Spotify music on the JBL Playlist speaker without logging into Spotify App

The One-Touch Play feature allows you to continue listening to whatever you played on your Spotify Premium account on another device, now on the JBL Playlist speaker, by simply pressing the ►|| button.

- Step 1** You must use your new JBL Playlist speaker once with your Spotify Connect account to teach it the path.
- Step 2** Later, after using Spotify on your phone or computer, and stopping play, you can continue your album, playlist or artist on the JBL Playlist speaker, just by pressing the ►|| button. No need to log on to Spotify App again.
- Step 3** If you want to change your selection of artist, album, playlist etc., you must again log on to Spotify App on your normal device.

ХАРАКТЕРИСТИКИ ПОТРЕБЛЕНИЯ ЭНЕРГИИ:

Потребляемая мощность в режиме сна: 2,0 Вт/час

Примечание:

изделие JBL Playlist предназначено для потоковой передачи музыки с помощью технологий Bluetooth и Wi-Fi.

Данное изделие рассчитано на мгновенное включение и всегда готово воспроизводить музыку.

Изделие JBL Playlist соответствует законам ЕС в области электроэнергетики.

Изделие переходит в режим сна (сетевого ожидания) через 10 минут бездействия, после чего его можно активировать через Bluetooth или Wi-Fi.
