

- **100% NATURAL:** Jungle Straws are individually hand crafted and harvested by local artisans at a small, family-run farm in rural Vietnam. Our reusable bamboo straws are an eco-friendly and sustainable solution to plastic, made without the need for any harmful pesticides or chemicals. We are a zero-waste company and our entire process is safe, non-toxic and completely organic.
- **REUSABLE:** Humanity's addiction to plastic is harming us all by polluting our oceans and damaging habitats and eco-systems. Our natural drinking straws are washable and dishwasher safe, and can be reused again and again. They are strong and durable and serve as a perfect alternative to single-use plastic.
- **MIXED SIZES:** Each pack of contains 12 beautifully handmade bamboo straws, packaged & delivered without plastic. They have been divided equally into two different widths. We've included extra wide reusable straws for smoothies, milkshakes and thicker drinks, and other sizes which are more suited to juice, soda, and cocktails. We use completely natural food-grade bamboo making our eco straws perfect for the entire family.
- **NATURAL BAG & STRAW POUCH:** To promote more environmentally conscious habits, our bamboo straws arrive neatly packaged and include a FREE stylish straw holder as well as a natural jute storage bag. We want you to use our eco friendly straws at home AND outside of the house. Go green and slip it in your purse or pocket to kick-start your plastic-free lifestyle.

Why Jungle Straws?

We are an independent British company driven to help end the damage that single-use plastic causes to our environment. Our values in eco-sustainability ensure that our reusable bamboo drinking straws are not only beautifully handmade, but are also ethically sourced at a single family-run farm in rural Vietnam, where we have personally overseen the entire manufacturing process

Our eco friendly bamboo straws are 100% organic & BPA free. No chemicals or pesticides are used throughout the entire production process

Care & Usage

Jungle Straws are a sustainable alternative to plastic and appeal to the whole family; whether you're looking for reusable straws for kids, smoothie straws for the home, or cocktail straws for your bar or business, our biodegradable straws are the perfect solution to kick-start your plastic-free lifestyle

Our washable natural straws include a cleaning brush and are dishwasher safe; they are strong, durable & can be used again & again. Jungle Straws are fully compostable and can be easily recycled

Free Single Straw Case

We want people to think responsibly, which is why we designed the Jungle Pouch! This stylish jute bag holds a single reusable eco straw so that you can slip it in your pocket, purse or bag and never forget to take it out with you again

Why use bamboo straws?

200 years: The time it takes for a plastic straw to decompose. 2050: The year experts predict there will be more plastic in the ocean than fish. 8 billion: The number of plastic straws used

in the UK every year.
