

Installation instructions

Thank you for purchasing this product . In order to facilitate your use and installation , please read the installation instructions in detail .

- Please wear gloves before installation
- Suitable for installation on windows not less than 60 *80CM
- Please clean the window and suction cups first.
- When the product is assembled (Please see the right pictures), the suction cup should be pressed when it is adsorbed on the window.
- With your fingers, push remaining air out of suction cups to ensure a proper adhesion.

Only 5 steps

Step 1 : Put the fiberglass tubes into the cushion.

Step 2: Assemble suction cups with long fiberglass tubes.

Step 3: Install angle elbows and support straps.

Step 4: Install second layer with support straps.

Step 5: Mount the other end of both support straps into Push-n-turn suction cups.
