

Logitech Yeti GX is a professional-grade USB-C headset microphone designed for streaming, podcasting, and professional voice recording. It features a cardioid pickup pattern, 24-bit/48kHz audio recording, and a built-in boom stand. The microphone is compatible with Windows, macOS, and Linux. It also includes a 3.5mm audio output jack for headphones and a USB-C connector for power and data. The Yeti GX is a high-quality, professional-grade microphone that is perfect for anyone who needs a reliable and clear audio recording solution.

¹ Requires Logitech G HUB software. All optional software downloads and OS compatibility information available at logitechG.com/GHUB
