SAFE SIZING FOR JUVENILE AND SIDEWALK BICYCLES

It is assumed that the bicycle you have bought is sized correctly for the user. Some parents may be tempted to buy a bicycle too "growing into" it. There should be a maximum of 1 inch clearance above the highest point of the top tube when the child is riding the bicycle with both feet on the ground (see drawing below).

WARNING:

- Parents/guardians should take the responsibility to guide and supervise the kids use of the bike to ensure the safety of the kids.
- Check the bolts.
- Don't ride on the sidewalk.
- Make sure that the tires are properly inflated.
- Parents are responsible for the safety of their children and should always wear an approved bicycle helmet when riding.
- Let their children onto busy roads until they are experienced enough to handle them.
- There are plenty of accidents caused by improper use of the bike. Not allow kid to ride on busy roads.

Important:

BEFORE YOU USE THE BICYCLE, PLEASE CHECK AND MAKE SURE IT IS COMPLETELY ASSEMBLED AND IN GOOD CONDITION. IF THE PARCEL IS DAMAGED OR BROKEN, PLEASE CONTACT THE DEALER.
