

WIRELESS KEYBOARD

With Leather Case

Electricity indicator:

If the power indicator is flashing red, indicating low power, please charge it in time. When the indicator light is green (or the red light is off), it means it is full. Please disconnect the charging power to ensure safety.

Basic parameters: (part of the parameters are objective factors will vary).

Working Voltage:	3.0V~4.2V	Working Current:	≤3.0mA
Working Time:	≥100 Hours	Low Voltage Alert:	3.0~3.3V
Sleeping Current:	≤0.3mA	Battery Standby Time:	≥120 Days
Battery Capacity:	≤150mAh	Key/strokes:	50g~70g
Keyboard Lifetime:	300 Million Times	Charge Input:	5V --- 1A
Connect Distance:	≤10m	Charging Time:	2~3 Hours
Charging Current:	≤200mA	Awaken Time:	2~3 Seconds
Charging Port:	Micro USB	Working Temperatur:	-10°C~+55°C
Matching Password:	No
