- Type 1 insert for 13-16mm rack tube diameter
- Type 2 insert for 8-12mm rack tube diameter

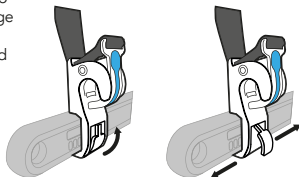

Type 1

Type 2

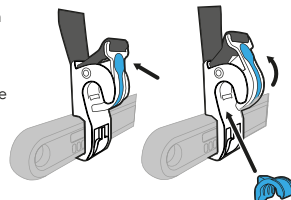

HOW TO ADJUST THE UPPER RAIL FITTING

- To fit the size to the bike luggage rack, unlock, change size and lock again

HOW TO REPLACE INSERTS IN UPPER RAIL FITTING

- Press the clip to open
- Remove insert if present
- Push (new) insert into the clip and make sure it is secure
- Release the clip to hold in place

HOW TO USE UPPER RAIL FITTING

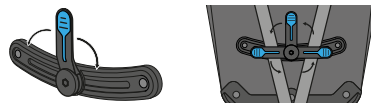

- Pull up on the webbing strap to attach and release the top bracket from the bike rack
- Use the "carry handle" to hold the bag in your hand

HOW TO USE LOWER RAIL FITTING

1. Loosen clip by unscrewing round knob

2. Rotate the clip to suitable position on carrier rack

3. Tighten the knob to keep clips in place
