

Kid'Sleep Moon

The 3 in 1 sleep trainer to sleep longer!

The Kid'Sleep Moon is an all-in-one sleep trainer that helps children know if it's still time to sleep or if it's time to get up.

If the figurine is illuminated in the sleeping position with the moon, it is still time to sleep. In the morning, when the moon begins to set (adjustable duration), the child knows that it is almost time to get up!

At the time set by the parents, the sun rises, and the figurine goes into an awake position, the child knows that he can get up! Parents can program 3 different times: one for the morning, one for nap and one for the weekend! When waking up, the passage from the lying/moon position to the awake/sun position can be done with 4 alarms to choose from or in silence to respect the child's sleep!

The Kid'Sleep can be used from birth as a traditional night light. To help their child fall asleep, parents can start one of the 4 lullabies available: 2 music, fountain, or intrauterine heartbeat!

Key features

- ✓ **The all-in-one sleep trainer:** 4 lullabies, 4 alarms and silent mode, 4 possible light intensities.
- ✓ **« Go to sleep » function : At night :** « Sunset » then « Moonrise ». And when you wake up, "Moonset" then "Sunrise".
- ✓ **Several programmable hours:** 3 settings => Night, Siesta and weekend. Animated LCD display and easy-to-adjust menu
- ✓ **Suitable from birth:** thanks to its decorative "night light" plate, the Kid'Sleep Moon is suitable for toddlers.
- ✓ **Dual power supply:** mains or batteries.

How does it work ?

- ✓ After setting the wake-up time, the weekend, then the duration of the nap, choose the desired mode for the child: Night light, Day/Night or alarm clock.
- ✓ The sleeping bunny is illuminated at night and at the programmed wake-up time, the awake bunny lights up.
- ✓ At bedtime you can put a lullaby or white noise of your choice

Good to know:

- ✓ Dimensions : 25 x 7 x 19 cm / 530 g
- ✓ Eco-consumption LED source - Does not heat up
- ✓ From 3 years old
- ✓ 2-year warranty

Detailed features

- ✓ Material ABS
- ✓ Power supply On mains (included)
or 3 AA 1.5 V LR6 batteries (not included)
