

aver Pro-BFK is an electric shaver with a vertical handle shavers, hand. Unlike traditional shavers, the shaver become an extension of your hand, letting you reach areas that are difficult to reach with a traditional shaver. The shaver has a flexible handle that lets the shaver become an extension of your hand, letting you reach areas that are difficult to reach with a traditional shaver. The shaver has a flexible handle that lets the shaver become an extension of your hand, letting you reach areas that are difficult to reach with a traditional shaver.

160° floating blades mounted in flexing shaving heads. Combined, the floating heads provide additional contouring of your curves, even the hard to reach areas.

Allow you to shave in any direction. The shaver has a flexible handle that lets the shaver become an extension of your hand, letting you reach areas that are difficult to reach with a traditional shaver. The shaver has a flexible handle that lets the shaver become an extension of your hand, letting you reach areas that are difficult to reach with a traditional shaver.
