NEW FOR 2019

Three new additions to the Cat paving family complete our existing line of 1:50 scale paving machinery.

The CB 2.3 utility compactor is a 2.3 metric ton machine suitable for car parks, shoulders, small parking lots, lane additions and other similar-sized jobs. Intuitive controls, nighttime operation, a foldable canopy and ample power complete this machine.

The CB 13 tandem vibratory rollers are 13 metric ton machines designed for high production applications. With an industry leading water spray system, compaction control and temperature mapping, these rollers offer performance and power to handle any job.
