

Q

Fan

Stadler Form[®]
SWISS DESIGN SINCE 1998

Q impresses!

Three speed levels: up to
2'400 m³ per hour

Made of stainless steel

Easy cleaning of the fan blades

«Q» is an object – and it is a fan! Unmistakably, «Q» bears the hallmark of the well-known Swiss designer and artist, Carlo Borer. «Q» is a work of art, since it was developed over many years until it became possible to combine the stylistic requirements of the designer with the quality requirements of technology. Intensive research was also required before the complex manufacturing steps were ready for production. The protective grille on the back can be removed for easy cleaning of the fan blades.

Metal

Specifications

Power: 40 watt

Room size: up to 40 m² / 100 m³

3 speed levels

Easy cleaning of the fan blades

Dimensions: 430 x 360 x 150 mm (w x h x d)
