

Naïf Baby & Kids Natural Sunscreen SPF30

*For natural babies & kids
to enjoy natural sunny days*

- With non-nano natural UV filters
- Does not leave a white haze
- Suitable for newborns & kids

Naïf Natural Sunscreen SPF30 has a 100% natural mineral formula that is suitable for the most sensitive baby skin. With non-nano Zinc Oxide as active ingredient it protects instantly from UVA and UVB radiation. It's easy to apply and does not leave a white haze thanks to the use of natural oils. And did we mention it's ocean friendly? Naturally.

We recommend babies should be kept out of the sun as much as possible. However if this isn't possible, Naïf's Baby & Kids Sunscreen is formulated to be safe for use on the vulnerable and sensitive baby skin.

Apply at least every two hours for optimal protection.

Have a natural sunny day!
