Laser Safety

Do not stare into the laser beam or view directly with optical instruments.

Battery Safety

- Do not immerse or expose to water or other liquids, or expose to fire, explosion, or other hazard.
- Do not disassemble or open, crush, bend or deform, puncture, or shred.
- Do not short circuit a battery or allow metallic or conductive objects to contact the battery terminals.
- Do not use the battery if it is bulging, deformed or damaged.
- To charge the mobile device battery, the battery and charger temperatures must be between +32 °F and +104 °F (0 °C and +40 °C).
- Do not use batteries other than those provided by GENERALSCAN, otherwise we will not be responsible for the consequences.
- Dispose of batteries according to instructions.
- Please follow local regulations to promptly dispose of used rechargeable batteries.
