Connected via Bluetooth

LED is **blue** and solid  
Connected via the audio cable

LED is **red**  
Rockbox #1 is charging

LED is **off**  
Rockbox #1 is fully charged

---

## 2. Fuel up (charging)

For best results, fully charge your Rockbox #1 before use. If you cannot wait, use it while it's charging and enjoy the music!

### a. How to charge

Plug the Rockbox #1 into an available USB port of your PC or Notebook with the supplied micro USB charging cable. While your Rockbox #1 is charging, the LED light will be red.

### b. How long to charge

A full charge takes around 30 mins. For maximum battery performance, always use the supplied micro USB charging cable and disconnect when the LED turns off. This means charging is complete.

---

## 3. Connect to your Rockbox #1

### a. Connect wirelessly via Bluetooth

Your Rockbox #1 can wirelessly play your music from any Bluetooth device such as Smartphones, Tablets, MP3 players, notebooks and PCs.

**Just follow the steps:**

**1. Prepare your Rockbox #1 for pairing**

Turn on your Rockbox #1 by switching the On/Off button. You will hear a sound signal when your Rockbox #1 is ready to connect.

**2. Prepare your Bluetooth device for pairing by enabling Bluetooth**

**iPhone, iPod or iPad**

1. Go to "Settings"
2. Go to "General"
3. Enable Bluetooth

**Android phone or Tablet**

1. Go to "Settings"
2. Go to "Bluetooth"
3. Enable Bluetooth

**Mac OS X**

1. Click the Bluetooth icon in the menu bar in the upper-right of your display
2. Turn Bluetooth on

**Windows 7**

1. Click the "Start button"
2. Click "Control Panel"
3. In the search box, type "Bluetooth"
4. Click "Change Bluetooth settings"
5. In the dialog box, click the "Options" tab
6. Select the check box for "Allow Bluetooth devices" to connect to this computer

**Windows 8**

1. Move the mouse to the lower right so that several icons begin to appear
2. Move the mouse upward to reveal them
3. Click "Settings"
4. Click "Change PC Settings"
5. Click "PC and devices"
6. Under Bluetooth, turn Bluetooth on

**3. Pair your Bluetooth device with your Rockbox #1**

**iPhone, iPod or iPad**

1. After you have turned Bluetooth on, a list of all the discoverable devices appears
2. Tap the Rockbox #1 to connect to it
3. You will hear an audio signal from your Rockbox #1 when the connection is successful

**Android phone or Tablet**

1. Click "Search for devices"
2. Tap the Rockbox #1 to connect to it
3. You will hear an audio signal from your Rockbox #1 when the connection is successful

**Mac OS X**

1. Click the Bluetooth icon in the menu bar in the upper-right of your display
2. Click "Set up Bluetooth Device"
3. Follow the instructions
4. You will hear an audio signal from your Rockbox #1 when the connection is successful

**Windows 7**

1. Click the "Start button"
2. Click "Devices and Printers"
3. Click "Add a device"
4. Select the Rockbox #1 from the list of Bluetooth devices and follow the instruction
5. You will hear an audio signal from your Rockbox #1 when the connection is successful

## Windows 8

1. Move the mouse to the lower right so that several icons begin to appear
2. Move the mouse upward to reveal them
3. Click "Settings"
4. Click "Change PC Settings"
5. Click "PC and devices"
6. Click "Bluetooth"
7. Select the Rockbox #1 from the list of Bluetooth devices and follow the instruction
8. You will hear an audio signal from your Rockbox #1 when the connection is successful

### b) Connect via the audio cable

No Bluetooth? Your Rockbox #1 also connects via 3.5mm stereo audio cable.

1. Take the supplied cable
2. Connect one end to your Rockbox #1
3. Connect the other end to any device with a headphone jack or audio output

---

## 4. Make some noise! Play music with your Rockbox #1

Music selected on your connected device will automatically play on your Rockbox #1. If you don't hear music, ensure you are connected and that the volume is turned up.

### Control the music

Use your connected device (Smartphone, Tablet, notebook, PC) to skip tracks, pause, turn the volume up and down.

### Note

While a device is connected to the speaker via the audio cable, it is not possible to connect a mobile device via Bluetooth simultaneously. To connect via Bluetooth the audio cable has to be unplugged first.

---

## 5. Hellos and how are yous. Calling with your Rockbox #1

When you are connected to your Rockbox #1 via Bluetooth, calls received are automatically transferred to your Rockbox #1. The Rockbox #1 will work as a speakerphone.

### Taking calls

Use your connected Smartphone to answer calls. You will hear the caller through your Rockbox #1.

---

## 6. Troubleshooting

### I hear some distortions. What do I do?

Lower the volume of the Rockbox #1 on your phone. Also make sure it is charged up.

### My Rockbox #1 lost the Bluetooth connection. What do I do?

Move the Rockbox #1 closer to your Bluetooth device.

Your Rockbox #1 will automatically reconnect if you are in range.

### I can't pair my Bluetooth device with the Rockbox #1. What do I do?

We have tried to add explanations for as many devices as possible in this user guide.

However, every Bluetooth device is different. Please check the user guide for your specific device.

## 7. Other things you might want to know

### **Do I have to pair my Rockbox #1 with my Bluetooth device every time I want to use it?**

No, once paired with a device, Rockbox #1 will automatically reconnect when powered on. Of course, Bluetooth has to be enabled on your Bluetooth device as well.

### **My Bluetooth device is asking for a PIN or Password to connect to Rockbox #1. What do I do?**

When asked for a Pin or Password enter 0000 and confirm.

### **Can I connect two Bluetooth devices at once?**

No, it is not possible for two Bluetooth devices to be connected at once.

### **How can I get the best sound out of my Rockbox #1?**

For best sound, make sure your Rockbox #1 is resting on solid ground.
