

MANUAL I.

1. Work as magnetic suction wireless power bank supporting iPhone 12 Series
2. Work as normal wireless power bank, supporting all mobile phones with Qi protocol
Supporting QNHM, XM.SAM and other wireless charging phones
3. Work as portable small size power bank, supporting normal charging for 99% phones
4. Work as wireless charger put on desk for convenient charging

Notes: wireless charging function

- * Put the phone on the wireless charger, click to turn on the wireless charging function
- * When using the charger to charge the power bank, when the input is in the fast charging state, then turn on the wireless charging for fast charging. If you turn on the wireless charging first, then use the charger to charge the power bank, there will only be 5W wireless charging
- * In the charging process of the power bank, when it is fully charged, the charging protocol will switch to the 5V input state. At this time, wireless charging is turned on, and only ordinary 5W charging is available. When the input charging cable is unplugged, it will automatically restart, and the wireless charging can enter the fast charging mode
- * During charging with PD12V charge, the wireless charging function is turned off because wireless charging does not support 12V power supply

DIGITAL ORIGINAL DESIGN

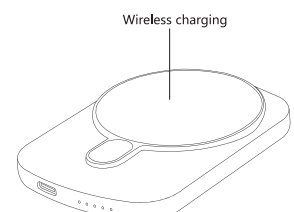

Features

- 15W magnetic wireless quick charging
- Power bank + wireless + magnetic suction 3 in 1
- PD+QC20W quick charging
- Sync input and output for portable charging
- Accurate LED power indicators
- High quality safe polymer battery

Packing details

- Power bank * 1
- manual * 1
- Type-C charging cable * 1

Wireless charging

Power Indicators

Power indicators to monitor the power status

1. Checking remaining power

Click the button, if one white light is on, it means the power is within 25%; if two white lights are on, it means the power is within 50%; if three white lights are on, it means the power is within 75%; and if four white lights are on, it means the power is within 100%. When the last light of the light flashes, the battery level is less than 5%, please charge it as soon as possible
2. Checking charging function:

Click the button, the mobile power light is on, the current battery reserve shown, and the red wireless charging light on. When it is detected that the device is charging, the red light is off, and the green light on.
