

Allkinds®  
**ELECTRIC**  
 LIGHTER  
**FOR KITCHEN**

The days of unreliable and dangerous gas lighters are over and a new generation of unrivaled plasma lighters has arrived. Ultrahot Superlitic plasma technology is durable, reliable and powerful. Our revolutionary plasma technology uses electricity instead of putane to generate a plasma wave. Plasma waves are hotter than fire, indestructible and safe. The built-in safety system ensures that it does not overheat and safe to use for all ages. Ultrahot plasma technology eliminates the current in electric shock plasma waves.

**DESCRIPTION**

The EGoods stylish and modern electric lighter is rechargeable. When using, you will enjoy the ease with which the candles, fireplace and/or BBQ are lit. It is also child-friendly and sustainable. ipsum dolor sit

**CHILD FRIENDLY**

The EGoods electric lighter has a child-friendly safety catch. This must first be pushed to the left if you want to use this lighter. This prevents unnecessary risks when using the lighter. This is of course desirable.
