USB-C Multiport Pro Adapter - with USB-C Power Delivery

Connect all your devices to your USB-C notebook and simultaneously power it

CN-390

USB-C Multiport Pro Adapter - with USB-C Power Delivery

Connect all your devices to your USB-C notebook with the CN-390 USB-C Multiport Pro Adapter, simply by plugging in the USB-C cable.

Connect up to 3 displays in SST (Single Stream Transport) or MST (Multi-Stream Transport) mode with the VGA port and HDMI ports. Use the RJ45 port to connect to a wired Gigabit network. The USB 3.1 Type-A ports support 5Gbps data transfer speeds and 7.5W power. The USB 2.0 Type-A ports support 480Mbps and 2.5W. You can read and write SD and MicroSD Cards with the integrated card reader slots. You can do all that while you are powering your notebook with the 100W USB-C Power Delivery port.

The CN-390 USB-C Multiport Pro Adapter is fully Plug & Play, which means that no additional driver software is required so you can be up and running quickly.
